

HA GIA PHUC

QA/QC Engineer

+ (84) 846 2526 39 | Phucha2639@gmail.com | github.com/Giaphuc713

DOB: 2004 | Gender: Male | Thu Duc, Ho Chi Minh City

SUMMARY

QA/QC-oriented Software Engineering graduate with around 1 year of front-end development experience. Hands-on with manual and automation testing through university projects, including Web, API, Selenium framework.

EDUCATION

- **University of Science, Vietnam National University Ho Chi Minh City (HCMUS)** 2022 – 2026
- **Major: Information Technology (Information Systems)** GPA: 3.4 / 4

EXPERIENCE

Daoukiwoom Innovation Vietnam – Frontend Developer and Testing Aug 2025 – July 2026

- Worked in a cross-functional team of 8 members to develop and maintain the front-end of a securities trading system using **ReactJS** and **Tailwind CSS**.
- Worked in an Agile framework, managing tasks through Jira.
- Collaborated with the BA team to investigate and fix issues based on customer feedback after the product was deployed.
- Wrote test case to verify fixed issues and assigned them to the BA for further validation.

SKILLS

- **Programming Languages:** JavaScript/TypeScript, Python, C++, Java, SQL
- **Frontend:** React, Redux Toolkit, Tailwind CSS, HTML/CSS
- **Backend:** Node.js (Express), Java (Spring Boot)
- **Databases:** Microsoft SQL Server, MySQL, MongoDB, PostgreSQL
- **DevOps & Tools:** Git, GitHub, Docker (basic), CI/CD (basic), RESTful APIs
- **Testing Tools:** Jira, Postman, Playwright, Selenium

TECHNICAL PROJECTS

Ecommerce Website – Personal Project 09/2026 – 09/2026

Tech Stack: Java, Selenium WebDriver, Cucumber, Docker, TestNG, Jenkins

- Implemented end-to-end automation test scenarios covering the user flow from login, product search, cart validation, and order placement.
- Developed BDD test scenarios with Cucumber.
- Designed and implemented automated test cases for functional testing, regression testing.
- Applied Page Object Model to separate page elements and business actions.
- Integrated the automation framework with Jenkins to execute automated test suites in a CI/CD environment and notified report result to Slack.
- Configured Selenium Grid with Docker to support automated test execution across different browsers.
- GitHub: github.com/TestAutomation-Ecommerce

Video Generation Platform – Team Project 03/2025 – 07/2025

Tech Stack: ASP.Net Core, React, AI APIs, SQL Server, Jira, GitHub

- A platform that creates videos from user content, with direct publishing to YouTube, TikTok, and Facebook, and **VNPay** integration for premium account upgrades.
- Combined audio and images into complete video outputs.
- Tested REST APIs and verified request/response data and status codes.
- Used SQL Server queries to check data during testing and investigate issues.
- Created and executed test cases, reported bugs, and retested fixes.
- GitHub: github.com/mquangcao/AIGenVideo

Forum Platform – Team Project 12/2025 – 04/2026

Tech Stack: Java, Spring Boot, Next.js, TypeScript, Playwright, Tailwind CSS, PostgreSQL/Supabase, Claude, OAuth2

- A Reddit-inspired community forum platform with features for community management, post sharing, comments, and content discovery.
- Built RESTful APIs using **Java** and **Spring Boot** for authentication, post creation, search, filtering, comments, and community membership.
- Designed test case for core features (login, register, CRUD comments, posts)
- Integrated automated tests using **Playwright** into CI/CD pipelines and generated tests reports to detect regressions early.
- Created functional, negative, regression, and integration test scenarios to validate API status codes, response payloads
- GitHub: github.com/forum-platform

CERTIFICATIONS

- **TOEIC Speaking & Writing:** 250 Jun 2025
- **TOEIC Listening & Reading:** 650 Dec 2024
- **Udemy Javascript From The Beginning 2.0: JavaScript From The Beginning 2.0** Aug 2025
- **ISTQB® Certified Tester - Foundation Level - 2026: Specialize in QA Manual Testing** September 2026
