DOB: 2004 | Gender: Male

SUMMARY

Software Engineering graduate currently pursuing to work on Full-Stack testing. Having foundation solid knowledge in manual and automation testing through university projects, including Web, API, Selenium framework.

EDUCATION

- **University of Science, Vietnam National University Ho Chi Minh City (HCMUS)** 2022 – 2026
- **Major: Information Technology (Information Systems)** **GPA: 7.96 / 10**

EXPERIENCE

Daoukiwoom Innovation Vietnam – Backend Developer And Automation Test Aug 2025 – July 2026

- Worked in a cross-functional team of 8 members to develop and maintain a securities trading system.
- Implemented unit test using Junit to validate individual component is worked correctly
- Prepared test execution report, support developer to deploy issue.
- Developed Selenium WebDriver scripts in Java to automate regression test cases and verify bug fixes after code changes.
- Collaborated with Business Analysts to clarify requirements, track defects.

SKILLS

- **Programming Languages:** JavaScript/TypeScript, C++, Java, SQL
- **Frontend:** React, Redux Toolkit, Tailwind CSS, HTML/CSS
- **Databases:** Microsoft SQL Server, MySQL, MongoDB, PostgreSQL
- **DevOps & Tools:** Git, GitHub, Docker (basic), CI/CD (basic), RESTful APIs
- **Testing Tools**: Jira, Postman, Playwright, Selenium, TestRail

GRADUATION PROJECT - AI AGENT STUDENT LEARNING ASSISTANT

Tech Stack: LightRAG, MinerU, Knowledge Graph, Redis, GraphQL, Docker, Python

- Role: AI Developer – Team size: 4
- Implemented entity deduplication and sameAs entity linking to resolve duplicate entities across knowledge sources and improve Knowledge Graph consistency.
- Developed section-based document chunking to preserve document structure and contextual meaning, improving retrieval quality for LLM queries.
- Developed the web UI and integrated it with the LightRAG-based architecture to support AI Agent interactions and knowledge retrieval.
- Video Demo: youtube.com

TECHNICAL PROJECTS

Ecommerce Website – Automation Testing Project 09/2026 – 10/2026

Tech Stack: Java, Selenium WebDriver, Cucumber, Docker, TestNG, Jenkins

- Implemented end-to-end automation test scenarios covering the user flow from login, product search, cart validation, and order placement.
- Developed BDD test scenarios with Cucumber.
- Designed and implemented automated test cases for functional testing, regression testing.
- Applied Page Object Model to separate page elements and business actions.
- Integrated the automation framework with Jenkins to execute automated test suites in a CI/CD environment and notified report result to Slack.
- Configured Selenium Grid with Docker to support automated test execution across different browsers.
- GitHub: github.com/TestAutomation-Ecommerce

Video Generation Platform – Front-end Developing and Testing 03/2025 – 07/2025

Tech Stack: ASP.Net Core, React, AI APIs, SQL Server, Jira, GitHub

- A platform that creates videos from user content, with direct publishing to YouTube, TikTok, and Facebook, and **VNPay** integration for premium account upgrades.
- Tested REST APIs and verified request/response data and status codes.
- Used SQL Server queries to check data during testing and investigate issues.
- Created and executed test cases, reported bugs, and retested fixes.
- GitHub: github.com/mquangcao/AIGenVideo

Forum Platform –Backend Developing and Testing 12/2025 – 04/2025

Tech Stack: Java, Spring Boot, Next.js, TypeScript, PlayWright, Tailwind CSS, PostgreSQL/Supabase, Claude, OAuth2

- A Reddit-inspired community forum platform with features for community management, post sharing, comments, and content discovery.
- Designed test case for core features (login, register, CRUD comments, posts)
- Integrated automated tests using **PlayWright** into CI/CD pipelines and generated tests reports to detect regressions early.

- Created negative, positive, and applied boundary value, equivalence partition for login, register, CRUD comments, posts scenarios.
- GitHub: github.com/forum-platform

CERTIFICATIONS

- **TOEIC Speaking & Writing:** 250 *Jun 2025*
- **TOEIC Listening & Reading:** 650 *Dec 2024*
- **Udemy Javascript From The Beginning 2.0:** JavaScript From The Beginning 2.0 *Aug 2025*
- **ISTQB® Certified Tester - Foundation Level - 2026:** Specialize in QA Manual Testing *September 2026*

ACTIVITIES

- **IT Consultant Challenge 2024 – Netcompany** *Participant 2025*
- **Spring Volunteer Campaign** *Participant 2024*
